Laird's Regulatory Consultants, Inc
17804 Braemar Place
Leesburg, VA 20175-7046

Subject: PRIA Label Amendment – Add SARS-CoV-2 virus and Emerging Viral Pathogens claim to the label
Product Name: MonoFoil D
EPA Registration Number: 90856-4
Application Date: July 7, 2020
Decision Number: 564459

Dear Ms. Laird:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Because you have opted to add statements pertaining to emerging viral pathogens to your label as described in the August 19, 2016, Guidance to Registrants: Process For Making Claims Against Emerging Viral Pathogens Not On EPA-Registered Disinfectant Labels ("Guidance"), https://www.epa.gov/sites/production/files/2016-09/documents/emerging_viral_pathogen_program_guidance_final_8_19_16_001_0.pdf, you are subject to the following additional terms of registration:

1. You may make statements pertaining to emerging viral pathogens only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer

information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.

2. Your statements pertaining to emerging viral pathogens must adhere to the format approved on the Agency-accepted master label.
3. You may make statements pertaining to emerging viral pathogens only upon a disease outbreak that meets all the following criteria:
 - a. The causative organism must be a virus that causes an infectious disease that has appeared in a human or animal population in the U.S. for the first time, or that may have existed previously but is rapidly increasing in incidence or geographic range.
 - i. For human disease, the outbreak is listed in one of the following Centers for Disease Control (CDC) publications:
 - A. CDC Current Outbreak List for “U.S. Based Outbreaks” (www.cdc.gov/outbreaks),
 - B. CDC Current Outbreak List for “Outbreaks Affecting International Travelers” with an “Alert” or “Advisory” classification (www.cdc.gov/outbreaks) (also released through the CDC’s Health Alert Network (HAN) notification process)
 - C. Healthcare-Associated Infections (HAIs) Outbreaks and Patient Notifications page (www.cdc.gov/hai/outbreaks)
 - ii. For animal disease, the outbreak is identified as an infectious disease outbreak in animals within the U.S. on the World Organization for Animal Health (OIE) Weekly Disease Information page (www.oie.int/wahis_2/public/wahid.php/Diseaseinformation/WI).
 - A. The CDC or OIE has identified the taxonomy, including the viral family and/or species, of the pathogen and provides notice to the public of the identity of the emerging virus that is responsible for an infectious disease outbreak. Based on the taxonomy of the outbreak pathogen identified by the CDC or OEI, the pathogen's viral subgroup is enveloped.
 - B. The virus can be transmitted via environmental surfaces (non-vector transmission), and environmental surface disinfection has been recommended by the CDC, OIE or EPA to control the spread of the pathogen.
4. You may begin communicating statements pertaining to emerging viral pathogens only upon CDC or OIE’s publication per term 3.a. of an outbreak of an emerging viral pathogen meeting all of the criteria of term 3. You must cease and remove all such non-label communications intended for consumers no later than 24 months after the original publication of the outbreak per term 3.a., unless the Agency issue written guidance to the

contrary due to continued public health concerns. The emerging pathogen claim language may remain on the master label.

Terms from points 1 through 4 above shall become immediately void and ineffective if registration for use against Rotavirus (ATCC VR-2018), Strain: WA is suspended or cancelled or no longer meets the criteria for a disinfectant claim (see EPA Product Performance Test Guideline 810.2200). In addition, terms B.1 through B.4 above shall become immediately void and ineffective upon your receipt of evidence of ineffectiveness against any pathogen in a less-resistant Spaulding category.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Jacqueline Hardy via email at Hardy.Jacqueline@epa.gov or Emilia Oiguenblik at Oiguenblik.Emilia@epa.gov.

Sincerely,

Jacqueline Hardy

Multi surface hard, non-porous disinfectant for your surfaces

Multi-purpose Disinfectant and Deodorizer (cleaner)[◇]

Multi-purpose Disinfectant and Cleaner[◇]

(This product) (disinfects) the following surfaces {insert use surface}

(This product) (disinfects) (in) (the following area) {insert use sites}

(This product) is approved for use in {insert use sites}

(This product) disinfects the surfaces of a wide variety of substrates^P

Treats, does not cover up

Use (This product) on hard to reach areas (like nooks and crannies)

Use (This product) (in) (under) (around) (on) {insert use site}

Use (This product) (on) {insert use surfaces}

<<NON-PUBLIC HEALTH CLAIMS>>

(Reduces) (Controls) the growth of odor causing bacteria (on (kitchen non-food contact) (bathroom) (and) (household, commercial) hard, non-porous surfaces).

<<DEODORIZING CLAIMS>>

Controls (the toughest) (tough) (kitchen) (bathroom) odors caused by (bacteria*)

Controls (the toughest) (tough) pet odors caused by (bacteria*)

Controls odors

(This product) Deodorizes by killing (many) (bacteria*) that cause odors.

Ordinary non-germicidal** spray can't do this.

Deodorizes with new fresh, (pleasant) (no) fragrance

Does not just mask odors, eliminates them at the source

Eliminates (removes) (the toughest) (tough) odors (caused by) (bacteria*)

Gets rid of (the toughest) (tough) odors by killing the (bacteria*) (that cause them) (at the source)

Gets to the heart of (the toughest) (tough) odors

Helps eliminate the build-up of odors (by killing odors) (by killing odor-causing bacteria*) (on hard, non-porous non-food contact surfaces)

Helps eliminate the build-up of odors (by killing odors) (by killing odor-causing bacteria*)^P

Odor fighter

De-Stinkify

Refresher technology

Eliminates the growth of odor causing bacteria between cleanings.

Perfect for eliminating your toughest odors at their source

(Reduces) (controls) (odor-causing bacteria)^P (on hard, non-porous surfaces)

(This product) Eliminates (the toughest) (tough) odors at their source

(This product) eliminates odors at their source caused by (bacteria*)

(This product) (is specially formulated to) eliminate odors (from) {insert use sites} {insert use surfaces}

To eliminate odors use (this product) around {insert use sites} {insert use surfaces}

Note Bold italicized text is information for the reader and is not part of the label [Bracketed information and phrase sequence are specified in 40 CFR 156.10 Variables such as CAPITALIZATION plurals or singular bold and italics are optional unless specified in 40 CFR] Optional text may be placed anywhere on the label/container. EPA Reg. No.: 90856-4
Updated Registration: 9/14/2020

Use (This product) every day throughout your (house) (home) (office) (school) (area) (workplace) to eliminate odors caused by bacteria

<<DISINFECTING CLAIMS>>

An effective disinfectant on hard, non-porous non-food contact surfaces for use in the kitchen, bathroom, bedroom and other household areas.

(Controls) (Kills) odor-causing (bacteria*)

Disinfection (Formula)

Disinfects and deodorizes by killing common (household) (hospital) (germs†) (bacteria*) and controlling their odors.

Dries quickly^P

Effective against (germs**)(bacteria*^P): {insert 'A -B - C' organisms^P}

Odor (killer) (destroyer) (eliminator)

Hard, non-porous surface disinfectant and odor eliminator

Helps eliminate odor-causing bacteria

Reduces cross contamination of bacteria* between treated surfaces

Reduces cross contamination of (germs†)(germs**) between treated surfaces

Eliminates household odors and bacterial growth on treated surfaces

Kills (Destroys) (Eliminates) 99.9% (of) (bacteria*)^P

Kills (Destroys) (Eliminates) 99.9% (of) (virus†)^P

Kills (Eliminates) 99.9% of {insert 'A-B-C' organism}^P

Kills (disinfects) against {insert 'A-B-C' organism}^P

Kills (bacteria*) (germs†) (germs**) all over your (home) (office) {insert site use}^P

Kills (bacteria*) (germs†) (germs**) help your house (home) (office) smell cleaner^P

Kills (bacteria*) (germs†) (germs**) (whenever) (wherever) you need (want) it.^P

Kills (household) (hospital) (healthcare) (kitchen non-food contact) (office) (bathroom) (bacteria*) (germs†) (germs**) ^P

Kills Pseudomonas Aeruginosa^P

Kills Salmonella Enterica^P

Kills Staphylococcus Aureus^P

Kills SARS-CoV-2 (associated with COVID-19)^P

Kills Human Rotavirus^P

Kills (the following) (household) (hospital) (healthcare) (kitchen (non-food contact)) (bathroom)

(office) (bacteria*) (germs†) (germs**). {insert 'A-B-C' organisms} (in 10 minutes) (in 3 minutes) ^P

Kills (bacteria*) (virus†)^P

Leaves surfaces (disinfected) (cleaner)

Hard, non-porous Surface (disinfectant) (cleaner)

On hard environmental surfaces, (this product) kills the following bacteria, {insert 'A-B-C' Organisms}

Hard, non-porous Surface Disinfectant

Surface Disinfectant^P

(This product) cleans and disinfects

(This product) (controls) (kills) the (bacteria*) that cause unpleasant odors (at the source)

NOTE: Bracketed information is denoted as: <<directive>>, {insert as noted}, (optional text), [required qualifier]. The term "this product" used throughout this document may be replaced with the marketed product brand name. To use the term "germ" the product must be efficacious against 2 of the 3 major classes of organisms. The product label must identify the specific bacteria, virus, fungus & mold.

Note Bold italicized text is information for the reader and is not part of the label [Bracketed information and phrase sequence are specified in 40 CFR 156.10 Variables such as CAPITALIZATION plurals or singular bold and italics are optional unless specified in 40 CFR] Optional text may be placed anywhere on the label/container.
Listed uses and use sites can be used partially or in their entirety

EPA Reg. No.: 90856-4
Updated Registration: 9/14/2020

(This product) (also) eliminates odor causing (bacteria*) (at their source) (to leave your home smelling) (fresh) (pleasant) (clean)
(This product) (MonoFoil Brand Products) (helps) (aids) in the reduction of cross contamination of (germs†)(germs**) (antibiotic resistant bacteria) (virus†) on treated hard, non-porous surfaces
(This product) (MonoFoil Brand Products) (helps) (aids) in the reduction of cross contamination of (germs†)(germs**) (antibiotic resistant bacteria) (virus†) on treated hard, non-porous surfaces
Kills household bacterial growth* on treated hard, non-porous surfaces
Kills active bacteria growth* on treated hard, non-porous surfaces
(This product) kills {insert 'A-B-C' organisms} (in 10 minutes) (in 3 minutes)^P
Kills many bacteria*^P
Kills many virus†^P
(This product) kills the (germs†) (virus†) (germs**) (bacteria*) that cause (bad) odors
You can also use (this product) in places that are difficult to (disinfect) (sanitize) (reach) such as nooks and crannies.
Your family comes in contact with germs everyday (both in the home and in public (places) (this product) kills 99.9% of (germs†) (virus†) (germs**) (bacteria*) commonly touched hard (environmental) surfaces (in your home) (in public places) (in the hospital).

NOTE TO REVIEWER- *If any of the above claims are used on the label, they will be footnoted on the back label as follows:*

† *SARS-CoV-2 associated with to SARS-CoV-2 (associated with COVID-19), Human Rotavirus*

3-Minute DISINFECTION CLAIM

Kills the following germs** in 3 minutes

(FRONT/SIDE PANEL)

Kills (destroys) (eliminates) 99.9% of (virus) in 3 minutes†^P

Kills (destroys) (eliminates) 99.9% of (virus) in 3 minutes on hard, non-porous (environmental) surfaces†

(BACK PANEL QUALIFIER)

Kills (destroys) (eliminates) 99.9% of SARS-CoV-2 (associated with COVID-19) (COVID19 virus[∞]) (SARS-CoV-2[∞]) (Human Rotavirus) in 3 minutes^P

Kills (destroys) (eliminates) 99.9% of (the following) (household) (hospital) (kitchen) virus† SARS-CoV-2 (associated with COVID-19) (COVID19 virus[∞]) (SARS-CoV-2[∞]) (Human Rotavirus) in 3 minutes^P

<<2020 PANDEMIC SARS-COV-2 (COVID-19)>>

Kill(s) (99.9% of) germs (†) (germs**) including the following listed organism(s) to SARS-CoV-2 (associated with COVID-19)^P (COVID19 virus[∞]) (SARS-CoV-2[∞])

Note Bold italicized text is information for the reader and is not part of the label [Bracketed information and phrase sequence are specified in 40 CFR 156.10 Variables such as CAPITALIZATION plurals or singular bold and italics are optional unless specified in 40 CFR] Optional text may be placed anywhere on the label/container. Kill(s) (germs**) (COVID-19^o) (and) (including the following listed organism(s) to SARS-CoV-2 (associated with COVID-19)^b (COVID19 virus^o) (SARS-CoV-2^o)
Kill(s) Pandemic 2020 to SARS-CoV-2 (associated with COVID-19)^b (COVID19 virus^o) (SARS-CoV-2^o)
Respiratory illnesses attributable to Pandemic 2020 to SARS-CoV-2 (associated with COVID-19)[†] are caused by Corona Virus. This product (product name) is a broad-spectrum, hard, non-porous surface disinfectant that has been shown to be effective against SARS-COV-2 (associated Covid-19)^b (COVID19 virus^o) (SARS-CoV-2^o) tested and listed on the label.
Kill(s) SARS-CoV-2 (associated with COVID-19) on hard, non-porous surfaces
Kill(s) SARS-Related Coronavirus 2 on hard, non-porous surfaces
Kill(s) SARS COV virus on hard, non-porous surfaces
(Now) tested (and proven (effective)) to kill (the) (COVID-19 virus^o) (SARS-CoV-2^o)
(Now) tested (and proven (effective)) against (the) (COVID-19 virus^o) (SARS-CoV-2^o)
(Now) tested (and proven (effective)) to help (reduce the spread of) (the) (COVID-19 virus^o) (SARS-CoV-2^o)
(This product) has demonstrated effectiveness against SARS COV-2 associated with the SARS-CoV-2 (associated with COVID-19)[†] virus and is expected to inactivate SARS-CoV-2 (associated with COVID-19)[†] Virus^b (COVID19 virus^o) (SARS-CoV-2^o).

<<USE DIRECTIONS>>

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read the entire label before using the product. Do not use on food contact surfaces. Do not use on food contact utensils, glasses or dishes.

Hard Surface: Spray Shake well. Shake well. (This product) comes ready to use. Spray directly onto surface, spray entire surface area 4"-6" from hard, non-porous surface until completely wet; surface must remain visibly wet for 3 minutes and then allow to air dry.

(To Disinfect) (For 3 minute disinfection): Let stand for three (3) minutes then allow to air dry.

To Deodorize:

Spray on surfaces as needed.

10-Minute DISINFECTION CLAIM

(FRONT/SIDE PANEL)

Kills (destroys) (eliminates) 99.9% of (bacteria*) in 10 minutes^b

Kills (destroys) (eliminates) 99.9% of (bacteria*) in 10 minutes on hard, non-porous surfaces

(BACK PANEL QUALIFIER)

Kills (destroys) (eliminates) 99.9% of (Pseudomonas aeruginosa) (Salmonella Enterica) (Staphylococcus aureus) in 10 minutes^b

Note Bold italicized text is information for the reader and is not part of the label [Bracketed information and phrase sequence are specified in 40 CFR 156.10 Variables such as CAPITALIZATION plurals or singular bold and italics are optional unless specified in 40 CFR] Optional text may be placed anywhere on the label/container. EPA Reg. No.: 90856-4
Updated Registration: 9/14/2020

Kills (destroys) (eliminates) 99.9% of (the following) (household) (hospital) (kitchen) bacteria*
Pseudomonas aeruginosa (*Salmonella Enterica*) (*Staphylococcus aureus*) in 10 minutes^b

<<USE DIRECTIONS>>

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read the entire label before using the product. Do not use on food contact surfaces. Do not use on food contact utensils, glasses or dishes.

Hard Surface: Spray Shake well. Shake well. (This product) comes ready to use. Spray directly onto surface, spray entire surface area 4"-6" from hard, non-porous surface until completely wet; surface must remain visibly wet for 10 minutes and then allow to air dry.

(To Disinfect) (For 10-minute Bacteria disinfection*): Let stand for ten (10) minutes then allow to air dry.

To Deodorize:

Spray on surfaces as needed.

<<ADVISORY STATEMENT>>

Does not harm polished wood, painted surfaces, leather, textiles, or acrylic plastics
For other surfaces, spot test in an inconspicuous area.

<<Animal Care Facilities>>

Veterinary Practice/Kennels/Poultry houses/Animal Care Facilities: For disinfecting hard, non-porous surfaces including equipment, utensils, cages, kennels, hatchers, setters, trays, racks, egg flats, walls, floors, ceilings, chick boxes, egg cases, vans, trash containers and teat and milking equipment etc. Remove all animals and feeds from the premises, crates, cages, and enclosures. Remove all litter, droppings, and manure from floors walls, and surfaces occupied or traversed by animals. Empty all troughs, racks and other feeding/watering appliances. Thoroughly clean surfaces with (This product).

Saturate surfaces with disinfectant. Allow surfaces to remain visibly wet for 10 minutes for bacteria or 3 minutes for viruses†. Ventilate building or closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set, and dried.

<<MICROORGANISMS- must be identified by genus & species. Abbreviations may be included but must appear in (parens).>>

<<PRECAUTIONARY /FIRST AID/ STORAGE – DISPOSAL INSTRUCTIONS>>

PRECAUTIONARY STATEMENTS: Hazards to Humans and Domestic Animals

Caution: Causes moderate eye irritation. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Avoid contact with eyes or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

FIRST AID	
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for about 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a Poison Control Center or doctor for treatment advice.
If on skin	<ul style="list-style-type: none"> • Take off contaminated clothing • Rinse skin immediately with plenty of water for 15-20 minutes • Call a Poison Control Center or doctor for treatment advice.
CONTACT NUMBER	
<p>Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-xxx-xxx for emergency medical treatment information. Questions? Comments or in case of an emergency, call toll free (local phone number) (toll free number).</p>	

<<Storage and Disposal language >>

STORAGE AND DISPOSAL: Store in original container in areas inaccessible to small children. Non-refillable container. Do not reuse or refill this container. Wrap container and put in trash or offer for recycling if available.

CONTAINER HANDLING: (Note to Reviewer: One or more of the following paragraphs for Container Handling will be selected, depending on packaging use/type.)

{REFILLS}: To Refill Product from Large Containers into Smaller Containers: This product may be used to fill and refill clean, properly labeled containers for within your facility. Make sure the small container has been cleaned, dried, and properly labeled according to state and local regulations. Also make sure other items (funnels or hand pumps) are properly cleaned and dried. To refill, [{simply pour} {pump product}] from the larger container directly into the smaller one being careful not to spill any product. Keep both containers sealed when not in use.

{For non-refillable containers greater than 5 gal.} Non-Refillable Container. Do not reuse or refill this container. Triple rinse container {(or equivalent)} promptly after emptying. Triple rinse as follows: Fill the container ¼ full with water. Replace and tighten closures. Agitate vigorously. Follow Pesticide Disposal instructions for rinsate disposal. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration.

< **APPENDIX 1** >>

<< **EMERGING VIRAL PATHOGENS CLAIMS – Hard, non-porous surface** >>

As per Attachment 1 of the GUIDANCE TO REGISTRANTS: PROCESS FOR MAKING CLAIMS AGAINST EMERGING VIRAL PATHOGENS NOT ON EPA-REGISTERED DISINFECTANT LABELS, [Company Name] agrees to the following terms of registration:

This product qualifies for emerging viral pathogen claims per the EPA’s ‘Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels’ when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral category:

-Enveloped Viruses

For an emerging viral pathogen that is a/an	...following the directions for use for the following organisms on the label:
Enveloped virus	Rotavirus (ATCC VR-2018), Strain: WA

[Product name] has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, non-porous surfaces. Therefore, [product name] can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es)] on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

[Name of illness/outbreak] is caused by [name of emerging virus]. [Product name] kills similar viruses and therefore can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es)] on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [website address] for additional information.

NOTE: Bracketed information is denoted as: <<directive>>, {insert as noted}, (optional text), [required qualifier]. The term “this product” used throughout this document may be replaced with the marketed product brand name. To use the term “germ” the product must be efficacious against 2 of the 3 major classes of organisms. The product label must identify the specific bacteria, virus, fungus & mold.
